CONSULTATION REQUEST (with Dr. Dodds)	(Attach or Fax to 714-891-2123 or Email to hempet@hotmail.com form and all medical information and / or previous lab results.	\$ 45.00

SUGGESTIONS FOR SENDING SAMPLES:

For Sending Serum Samples ONLY (For Thyroid testing, Titers and Heartworm testing). We have a few options for mailer kits available for purchase. Please call 714-891-2022, extension 21 for more information. OR, you can use USPS priority 2-day or even regular 1st mail. Put the serum tubes in a zip lock baggie & then wrap with bubble wrap or padded paper in a small sturdy box with the filled out Test Request Form. **NO ICE PACK IS REQUIRED.** Serum samples are viable for about 14 days at room temp (except for during extreme hot weather conditions)

Whole Blood Samples – Lavender Top Tubes REQUIRE an ice pack and should be sent by overnight courier. This would include any tests or profiles that contain CBC testing which requires a lavender top tube.
